In the table below potential hazards are assessed for overall risk by comparing the potential danger to the likelihood of an occurrence.

For example if there is a high danger but a low chance of it happening there is low overall risk. If there is a low danger but a high chance of it happening there may be a medium to high risk level.

Potential Hazard	Potential Danger	Likelihood	Overall Risk Level	Controls	Actions Needed?
Participants or coaches injured falling off equipment	Medium	Medium	Medium	<p>Making sure that all coaches are supporting safely and understand the task that they are teaching.</p> <p>Also making sure that the participants understand what they have to do so that they don't hurt themselves, a coach to explain.</p>
